

Washington Scholarship Fund

January 5, 2007

Dear District Trust Charities:

On behalf of our students, families, and staff, Happy New Year from the Washington Scholarship Fund – the largest K-12 scholarship-granting organization in the nation's capital.

We are writing to express our gratitude for having been selected to receive funds raised through your July 2006 benefit. It was a nice surprise and so easy for us since DTC did all the work! All told, we received \$4,380 through individual and corporate donations brokered by your group.

It is encouraging to know that DTC, an organization established and operated by young professionals in the District, is regularly helping to fund social change in the city by tapping into its own personal and professional networks. Ultimately, by partnering with WSF, you have helped individuals and corporations make an investment in the future of the District and, in fact, the broader national community. Take it from alumnus Keith Smith, a Gonzaga College High School Class of 2005 Signature Scholar who is now attending Columbia University: ***“Receiving a WSF scholarship has helped me realize that with a little help, you can achieve anything you want.”***

Again, thank you for your generosity and support, and for ensuring that our scholarship students enjoy another year of quality education.

Warmest Regards,

Sally Sachar
President and CEO
